

WiFi Finder Plus

WiFi Finder Plus

Product Number 33086

Don't waste valuable time booting up laptops or PDAs to find network HotSpots –use the WiFi Finder Plus to find HotSpots and their signal strength. Press a button, and this patent-pending, lightweight detector searches then indicates signal strength if an 802.11b or 802.11g network is within range. The circular Bluetooth indicator lights up when in range of a Bluetooth-enabled device.

Features and Benefits

- Eliminates wasted time and effort booting up the laptop or PDA to find a hot spot.
- One-button detector searches and indicates signal strength if 802.11b/g network is in range.
- 5 LEDs show signal strength.
- Features search mode that can be used to find the strongest signal strength within a hot spot.
- Separate indicator illuminates when Bluetooth enabled devices or networks are in range.
- Filters out other 2.4GHZ signals from cordless phones, cell phones or microwaves avoiding the risk of mis-detection.
- Compact unit fits comfortably in the hand and attaches easily to laptop carrying cases or keychains.
