No more plugging and unplugging computer devices. With the Kensington ShareCentral™ 5, two computers can share a printer, hard drive, scanner-any five USB devices-and switch between them with the touch of a button. It reduces cable clutter, too!

Features and Benefits

- Easily share access to USB devices between two computers-LED lights indicate which computer has access
- Gain instant access to your USB devices by plugging one USB cable into your computer
- Simply press a button to switch individual USB devices from one computer to another
- Easy to set up and easy to use with no network required
- Both computers have direct access to the printer thanks to Automatic Printer Sharing
- Eliminates cable clutter and is wall mountable
- Plug-n-play

Technical Specs

- No software required for basic features
- Automatic Printer Sharing supported with included software and for computer running Windows XP or Windows VISTA
- Five USB ports
- Led indicator light
