Turn your laptop into a desktop in one simple step with the Kensington Universal Docking Station with Video and Ethernet sd400v. Simply plug a single USB cable into your laptop, add power and you are instantly comfortable and connected to the internet via a wired connection. Share this setup with any user. Auto-install design makes the initial installation a true "plug-n-play" experience. No CD software required.

Features and Benefits

- Universal compatibility with all brands of laptops via USB: Acer®, Asus®, Compaq®, Dell®, Gateway®, HP®, IBM®, Lenovo®, Sony®, Toshiba® and more
- Auto-Install design makes the initial installation a true "plug-n-play" experience. No CD software required*. Perfect for office space shared with multiple users. * Auto install supported by all PC running Windows® XP and Windows Vista®
- All the port connectivity you need including 10/100 ethernet to maintain internet connection and avoid wireless hang-ups. "Always-on" USB ports charges your mobile devices even when your laptop is shut down
- Hot pluggable, so you can connect to the dock and swap devices without shutting down
- HD screen capable so you can connect to a very large external monitor and drastically increase your visual workspace. Front Dualview button makes dual screen setup easy
- Mini Tower design reduces desktop footprint, Kensington security slot allows you to secure your dock and its connected peripherals (via security cable and cablesaver)
- Front Audio ports and back speaker port lets you connect both 2.1 stereo speakers and internet chat headset. Docking station will not provide power to your laptop, but provide connectivity to peripherals and network via a single USB cable.
- Docking station will not provide power to your laptop, but
