

KENSINGTON®

Simply Portable™

Laptop Computer Cases

Now mobile professionals can carry their laptop computers and accessories in ultimate comfort and style with their choice of versatile cases from Kensington. This compactly designed line offers three-way portability, superior laptop protection, built-to-last construction and ergonomic features. Single, double or triple compartment cases accommodate today's newest technology products. From PDAs to cell phones, mobile tools fit perfectly in the easy access organizer pockets of our Simply Portable cases.

Durable Construction

Simply Portable cases hold up against the toughest conditions. Kensington design incorporates advanced construction techniques, including industrial rivets, self-repairing zippers, heavy-duty webbing and PVC coated, water-resistant fabric. Plus, the newly constructed zippers are compatible with SonicLock™ from Kensington or other security devices for theft protection. All cases have ample space for essentials, yet fit compactly under most airplane seats.

Three-Way Portability

Each case has three comfortable, ergonomically designed carrying options. Simply Portable Backpack offers convenient hideaway backpack straps, EasyGrip foam handle and padded shoulder strap. The Simply Portable One, Two and Three series feature a luggage strap that attaches to wheeled cases, EasyGrip foam handle and padded shoulder strap. However you travel, Simply Portable Cases are built to keep you comfortably mobile.

DropShield™ Protection

All cases are equipped with padded laptop protection and most have additional DropShield defense. Our DropShield foam padding in thicknesses ranging from 0.5" up to 1" is designed to absorb shock from accidental bumps and drops by allowing air to penetrate evenly throughout tiny air holes in the padding.
