

Liberator™

Convertible Laptop Bag

It doesn't look like your typical computer bag. That's because it's anything but typical. The contemporary style, comfort, and flexibility of the Liberator™ Convertible Laptop Bag fits your lifestyle and works the way you do. With ample room for most laptops and four ways to carry it, it's the perfect fit to take on a trip or use every day.

Fits your stuff.

There's plenty of room for everything you want to carry.

- The easy access Junk-It™ drawer is a completely separate compartment, giving you quick access to items tucked away in their own space
- The SnugFit™ computer compartment stretches to accommodate your laptop securely
- The bag expands when you've got a lot to take along, and zips up for compact, day-to-day use

Fits your style.

With four-way portability, the Liberator Convertible Laptop Bag lets you decide how to use it.

- Pull out the "hideaway" backpack straps and keep your hands free
- Carry it by hand, or wear it over your shoulder
- Slide it onto your wheeled luggage for easy transport
