

MicroSaver® DS Custom Notebook Lock - Shared Access

The Most Secure Lock from Kensington!

Product Number **K64347L**
Sugg. Street Price **\$0.00**

Losing your notebook is unthinkable. Protect your computer with incomparable security, the disc lock. The most advanced disc locking technology is featured with carbon tempered steel core cable, external braided steel sheath, and patented T-bar locking mechanism that attaches to the standard Kensington security slot found in 99% of notebook and computer devices. The Shared Access solution allows all user keys to open all locks so multiple users can work from shared notebook computers.

Features and Benefits

- Advanced, nearly impenetrable disc-lock technology
- 3 layers of cable strength: carbon tempered steel core, aircraft-grade steel cable, external steel braided sheath
- Exceeds industry security lock standards
- Patented T-bar locking mechanism provides superior lock strength and theft protection
- Easy to install and use to protect high security computer devices
- Fits in the standard Kensington security slot found in 99% of notebooks, and also many CPUs, flat panel monitors, projectors, printers, docking stations, tablet PCs and other devices
- Online key registration to replace lost keys
- Ships with multiple User keys

Technical Specs

- Advanced Disc-lock technology
- 6-ft Carbon tempered steel cable
- Patented T-bar lock for secure grasp to the slot
- Rubber tie for cable cord management and portability
