No wires... no compromises. The Kensington PilotBoard Laser Wireless Desktop is the first wireless desktop set that offers the sensitivity and accuracy of a laser mouse, the comfort and convenience of a programmable wireless keyboard, and the high performance of 2.4GHz connectivity, all in one package. By combining our advanced 6-button programmable laser mouse with our most comfortable keyboard design ever, the PilotBoard Laser Wireless Desktop will help you stay in control of your workspace and your busy life.

Features and Benefits

- Secure 2.4 GHz enhanced frequency prevents signal overlap and interception
- Advanced laser technology responds quickly to micro movements
- Intelligent power management and ultra-efficient sensors provide up to a 9 month battery life, based on an average usage of 8 hours/day, 5 days/week.
- One-touch multimedia keys instantly launch calculator, email and more.
- 6 programmable mouse buttons reduce repetitive tasks and speed you through your work.
- Tilt-scroll wheel for 4-way directional scrolling side to side and up and down.
- Soft rubber mouse grips and cushioned keyboard wrist rest gives you all day comfort.
- Wireless technology lets you position both keyboard and mouse in their optimal position -- up to 30 foot range.
