\$39.99

Give your iPhone GPS, podcasts, and phone calls a sound boost. The built-in amplification system in the cradle doubles the volume from your iPhone speaker making it easier to hear your voice-guided directions, calls and more. The cradle holds your iPhone safely and securely on even the roughest terrain yet uses no adhesive or hardware so it can be repositioned for optimum GPS reception and moved easily from car to car.

Features and Benefits

- Amplifies iPhone speaker for twice the volume with no added battery drain
- Mounts on any dash-no installation required
- Lets you quickly and easily insert and remove your iPhone with one hand-even in a case
- Provides a safe, secure fit every time
- Mounts with no adhesives so it won't damage your dash
- Cradle swivels, tilts and turns for unlimited flexibility or adjustability
- Includes 4 sets of swappable rubber inserts to fit 2G/3G/3GS iPhones with and without a case
- NOTE: Because the design of cases can vary from brand to brand, the acoustic amplifier may not perform as specified when a case is used

Technical Specs

- Cradle compatible with iPhone 3GS, iPhone 3G, iPhone
